

*presents the
Trucker Buddy Mobile App*

The Trucker Buddy Mobile App is designed to improve communications between the truck driver and their matched classroom. It is available in both the iTunes App Store and Android Market

For more information on this program, call us at 800-MY BUDDY or e-mail at info@truckerbuddy.org

Trucker Buddy Mission

Trucker Buddy enriches the educational lives of students by infusing their studies with the positive experiences and influence of a professional truck driver. Through consistent communication between the students classroom and their Trucker Buddy, the student understands how education is applied in the real world. The program allows the professional truck driver to improve their community and the overall image of the trucking industry.

Smart Phone Application

Trucker Buddy was pleased when uFollowit offered to provide a custom smart phone application that would add an element of cutting edge technology while enhancing the exchange of information between the truck drivers and the classrooms. Using this application, will greatly improve the immediate exchange of information and hopefully allow for frequent communications. Letters, photos, postcards and other items of interest can be captured and sent in real-time and locations can frequently be updated to show kids where you've been and where you are headed.

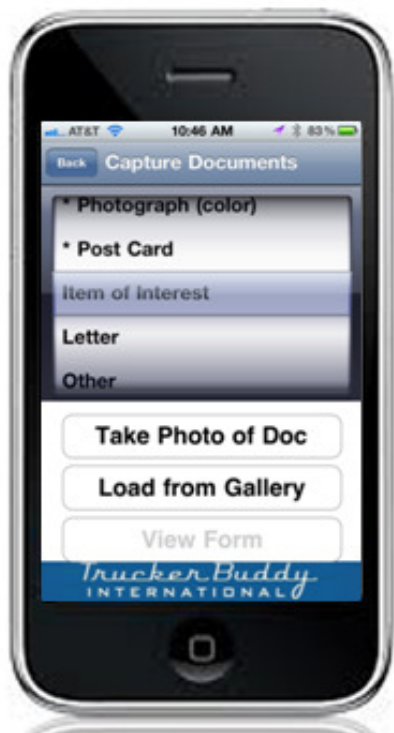

Simple to use

- 1. SHARE**
The share button allows you to quickly and easily share this application with others.
- 2. HELP**
This button links you to the online training videos that show how the app works and its benefits for the program.
- 3. DOCUMENTATION**
The document button allows you to capture and share information with the students or the truck driver.
- 4. MORE**
The More... button provides easy access to the Trucker Buddy website in addition to other tools that may help the truck driver out on the road.

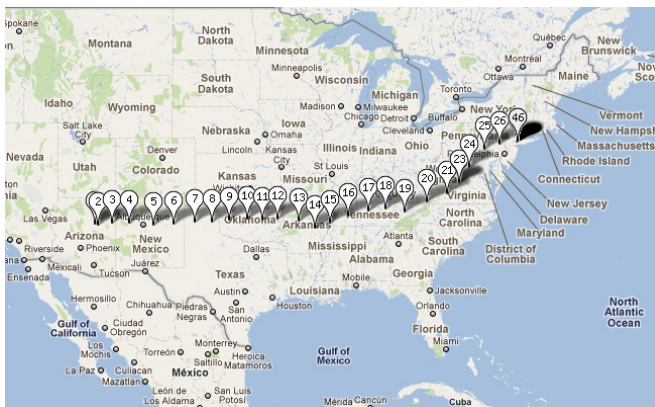

Documentation

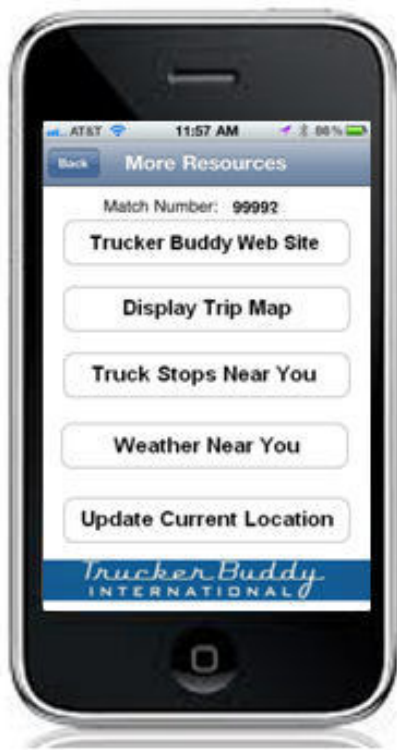

Sharing information between the classroom and the truck driver just got easier. Using this smart phone application the driver can snap a photo of his/her truck, the scenery, a postcard from the area, items of interest or even a letter he/she has written to the students. If the teacher also has a smart phone, the letters the kids write to the trucker can be seen by the driver within minutes.

MORE Resources

Trucker Buddy

A 501.C.3 charitable organization that was started in 1992 to match professional truck drivers with the classroom (grades K-8) to enrich the students learning experience. It provides lifelong lessons on math, geography, writing, reading, technology and a general understanding of the trucking industry for tomorrow's generation.

uFollowit™ was established in 2007 and was the first company to provide smart phone solutions in the transportation industry. Mobile Dropbox is our latest solution designed to deliver documents and asset visibility to all parties involved in the supply chain process, while reducing cost and making things easier for the driver on the road. Mobile Dropbox provides the foundation for the technology to be customized for Trucker Buddy. Our goal is to enhance the user experience for the truck driver, students and teachers participating in this wonderful educational program.
